

## KEEPING IT INTERESTING

Take time to stop by and check out these labels exhibiting at SwimShow for the first time for Season 2020

Unika Swim

**UNIKA SWIM** is a line of swimwear created for women of all ages, shapes and sizes. Body-specific swimwear in sizes XS to XL is offered, as well as custom swimwear, allowing customers to choose from hundreds of styles and more than 150 fabrics in sizes up to 4XL and cup sizes up to J. Cover-ups are also offered. Manufactured in Canada, the line is constructed exclusively with ECONYL regenerated nylon. As founder Betsy Campos explains, "Every woman's body shape is different and unique, and so are their life experiences, personalities and tastes. I wanted women to be able to reflect their uniqueness and be confident in their choices."

Belgian founder Oriana Baron designed **MY.O SWIMWEAR** to be high-end, well fitted and interchangeable. Made in Italy of the finest ultra-soft fabrics, the line has a unique concept—each of the sophisticated one- and two-piece styles comes with a printed strap and allows the purchaser the option to select a second strap in the solid shade of her choice. Whether the strap completes a one-shoulder design, side lattice or side-tie, the second color way allows the customer to transform the look of her suit. Styles can accommodate generous cup sizes.
